

County Shade Turf

DETAILS

If the health of your turf is an issue in shaded areas, County Shade provides the solution. This medium texture, low-maintenance turf is grown using grass cultivars which flourish in a shaded environment. It is grown for a minimum of 18 months before harvesting.

County Shade is suitable for use in municipal gardens, shaded landscapes and lawns, all recreational areas and on golf tees and racecourses.

Keybenefits:

- Extremely High Shade Tolerance
- Very aggressive with unique stoloniferous creeping ability
- Medium texture - grown for 18months
- Exceptional wear tolerance due to high shoot density
- Superb year round colour - impassive to climate change
- Drought tolerant
- Low maintenance - 50% less mowing than a conventional Rye lawn
- Requires less fertilizer but little and often

100%	Supra/Supranova – Poa Supina
