

HARDWEARING MIXTURE FOR AREAS OF INTENSE USAGE. DESIGNED TO LAST.

For areas that are subject to year-round use. Ideal for use on school sports fields which are used for winter and summer sports. The robust perennial ryegrass varieties provide wear tolerance whilst the creeping fescue helps to create an exceptionally tight-knit turf. The inclusion of fescue species also aids performance during spells of dry weather. For hard-wearing, family lawns with pets and children - this is the best choice.

- Suitable for multiple applications
- Ideal for sports pitches that are used for summer and winter sports
- Playing fields, parks and hardwearing family lawns
- Quick establishment and excellent wear tolerance
- Creates a thick, strong turf
